

## Where APC Directed its Efforts in 2022

### Arnold Preservation Council

- Has been very involved throughout the year in tracking the proposed Chick-fil-A restaurant in Arnold. APC has distributed information to members, placed relevant documents on its website, and held meetings with and written letters to county and restaurant officials, with particular attention to modification and variance requests.
- With similar actions, has continued for much of the year to monitor the proposed development on Freshfield Lane.
- Has continued to keep informed on the proposed Tommy's Car Wash and the development at Wroxeter Estates, as well as the Broadneck Trail initiative.
- Continued to keep a close watch on ongoing plans to improve Route 2, including the widening of the highway and projects at Joyce lane.
- Kept abreast of developments in the possible building of a new Bay Bridge.
- Participated in and kept up-to-date on the Region 4 Plan process as well as actively supported Plan2040 (and will continue to follow its progress until completion).
- Began to investigate the possibility of a bus shelter along Route 2.
- Though the event was cancelled due to the weather, planned hosting a rest stop for the annual Lifeline 100 biking event.
- Again, participated in the State Highway Administration's Adopt-a-Highway program by sponsoring clean-ups of an Arnold segment of Route 2.
- Held membership meetings and sent out numerous newsletters and informative emails to members, including co-sponsoring Candidate's Night in advance of the 2022 elections.

## **Expected Issues of Concern in 2023**

All of APC's 2022 efforts are expected to be issues of concern in 2023, along with the following new issues.

- Possible proposed changes to the Anne Arundel County Code
- Possible proposals for new developments in Arnold, especially those requesting modifications or variances
- Increasing the reach of Arnold Preservation Council so that it can keep more Arnold citizens informed about critical matters in the Arnold area
- Overhauling APC's website
- Increasing the number of volunteers helping APC to carry out its mission
